

**Job Openings in
International Strategic and Security Studies Programme
NATIONAL INSTITUTE OF ADVANCED STUDIES, BANGALORE**

National Institute of Advanced Studies (NIAS), a multidisciplinary research institute located in Bangalore, invites applications for research positions in the International Strategic and Security Studies Programme (ISSSP). ISSSP has a distinctive inter-disciplinary orientation and seeks to combine science and technology with the disciplines of international relations, economics and political science in understanding strategic and security developments in India and the world. The successful candidate will be part of the research team that works on science & technology applications, strategy and policy oriented research. Research interests include weapon systems, India's external strategic environment, space security and maritime domain awareness and science diplomacy.

To get a glimpse of our ongoing studies and research outputs, please visit: <http://www.nias.res.in/research-schools-issp.php> and <http://issp.in/>

ISSSP is planning to take up additional studies in these and allied areas and invites applications from candidates with appropriate qualifications, research experience and aptitude. We are looking for persons with interests in one or more of the following

- Science and Technology disciplines in the domains of Aerospace Engineering, Computer Science and Artificial Intelligence.
- Principles of defence management, Defence procurement and acquisition policy.
- Maritime affairs, Weapon Systems and Naval Systems.
- Economics, International Relations, Political Science and defence studies

Junior Research Fellows (JRFs) – 4 posts

Essential Qualification: M. Tech in Engineering discipline (aerospace/nuclear/IT/Computer Science) or Master degree in Defence Technology Management, Defence Studies, International Relations, political science and Economics. Candidates who have qualified for UGC-net will be given preference.

Job Requirement: Assist in the ongoing and new studies of the Programme. The candidate must be capable of working in a team and be able to independently collect, collate relevant data, provide data interpretation and analyse support.

How to Apply:

Interested applicants should submit their curriculum vitae electronically including the names and addresses of two referees, two samples of published work and a brief statement of interest explaining why they are interested in joining **this programme** at NIAS.

The deadline for receiving the first round of applications is **30 August 2019**. Short-listed candidates will be invited to NIAS for an interview.

The research positions are contractual appointments. The salary will be commensurate with qualification and experience. The remuneration package offered by NIAS is par with other premier institutions in the country.

The applications should be addressed to:

Dr.Prakash Paneerselvam
